

Renewable Energy

Get experience, innovation and quality with the team at

Tri-City Electric Co.

When it comes to renewable energy, electrical construction is one of the most important elements for a successful operation. That's why an experienced team is critical. Tri-City Electric's team of professional and electrical engineers have the experience and expertise needed to tackle renewable energy projects from start to finish. With an innovative approach to planning projects and a drive to tackle anything that occurs along the way, you can have confidence in Tri-City Electric to provide the quality you need and want.

CONFIDENCE DELIVERED.®

Tri-City Electric Co.
Since 1895

Experienced in renewable energy.

Tri-City Electric Co. is an industry leader in construction electrical systems for renewable energy. With an experienced management staff and skilled craftsmen, Tri-City Electric Co. delivers the renewable energy technology your home or business needs. Our team's commitment to quality, safety and value allow your renewable energy project to run efficiently and provide the renewable energy source you want.

"Renewable energy is the future, and Tri-City Electric Co. has the people and proficiency to get you there."

— Doug Palmer, President
