

Sustainability

Delivering sustainable solutions for people and the planet.

Tri-City Group

Since day one, we've been committed to thinking ahead for our customers while creating smart solutions that deliver confidence. Today, that means supporting the next century of excellence with increased efficiency and sustainability. We're committed to designing solutions that are better for the environment and your bottom line. Our team of experts can help you achieve a wide array of sustainability goals, with the quality and technical know-how that Tri-City has been known for since 1895. Together, we will empower you to reach your economic and sustainability goals while improving your efficiency and reducing your environmental footprint.

CONFIDENCE DELIVERED.®

Tri-City Group

Innovating tomorrow's solutions, today.

Whether you're driven by environmental protection, social responsibility or economic efficacy, there's no denying that implementing sustainable solutions has lasting benefits to positively impact people and the planet. From boosting your resource efficiency to reducing emissions and beyond, we're ready to support your sustainability goals.

Your sustainability goals, our expertise.

Our trusted team is ready to help you meet or exceed industry sustainability standards with complete confidence and ease. As your partner, we'll help position you as sustainability leader, creating economically and environmentally smart solutions with our advanced technical know-how and support.

It's not just a service. It's our standard.

We understand that change starts with us. At Tri-City Group, we recognize our responsibility to care for and protect the environment while being a leader in sustainable practices within the industry. That's why we hold ourselves to our own sustainable policies to ensure we minimize our environmental impact while continuing to deliver quality services.

By advancing new technologies and renewable energy solutions, we can support your sustainability goals – benefiting both the industries and communities you serve.

Our internal focuses include:

- Energy Efficiency
- Waste Management and Minimization
- Environmental Compliance
- Efficient Fleet Management
- Environmental Training and Safety
- Environmental Management System
- Conservation and Stewardship
- Continuous Improvement
